

HospitalKart

The medical equipments store

- **Access to healthcare is the right of every individual but lack of quality infrastructure, dearth of qualified medical functionaries, and non-access to basic medicines and medical facilities thwarts its reach to 60% of population in India**
- **we act as the intermediate between hospitals for increasing the accessibility of medical equipments from cities to even the rural area hospital**

What makes us different?

- The existing competition procures the equipment and then provides it for leasing.
- But we directly connect the lesser to the lessee.

Hospitalkart is a centralised marketplace for hospitals to buy, sell, and lease medical equipment.

Equipments can be leased on the basis of urgency.

- Normal lease - over a very extended period of time**
- Emergency lease - at the time of crisis**

Normal Lease Clause

- Once the equipment is given to lessee then the owner does not exercise the ownership rights.
- Both the parties should be aware of the terms and conditions of the lease agreement.
- The equipment leased by the owner should be in workable condition.
- Lessee shouldn't vandalize the equipment.

Emergency Lease Clause

- Emergency request is first verified by the equipment owner
- When an equipment is leased out ,the owner cannot cancel the lease under any circumstance.
- Equipment should be delivered as soon as possible

Thank You
